

Summary of activities in June 2012 in Salavan TTC

Japan Overseas Cooperation Volunteer Ms.Asuka MOMIYAMA

1. What I did

A) Observation exam of Teaching Method of Mathematics for primary school

I took part in “Teaching Method of Mathematics for primary school” of Mr. Senhuck BUNMEE. This class finished to study, so I just observed the examination. I was disappointed that most of the students to were to cheat. I think that students know that cheating is bad behavior. I think this point should be improved.

B) Teaching of Teaching Method of World around us for primary school

I took part in “Teaching Method of World around us for primary school” of Mr. Suphanh THEPHAVONGSA. I introduced about how to make the model of the respiratory tract.

C) Presentation Report Ceremony of Students English Special Course

On 6th June I took part in Presentation Report Ceremony of Students English Special Course 11+3. Students presented about their job or office. It was very interested in, because I could know many job and office in Salavan. It is good thing. I asked some questions to the students. Some students speak English very well.

D) Meeting of Natural Science Office

On 14th June we have a meeting of science office. We look back to our activities, and we were evaluated in second term. I could not understand the contents of the conversation only a few. But I think that the evaluation of the activities is a very important thing.

2. Impression

1) Good thing

- I was able to do a good job in cooperation with the teacher in this second semester.

2) Problem

- ① The most problem is that for students to cheat.

3) Solution

- ① Teachers should teach to students that cheating is bad behavior.

3. What I want do

- I want to make the summary of mathematical materials that I made and introduce.
